Registration.html

Note:

Your page must make use of a style sheet that defines formatting style. The style sheet should be defined in **a separate file** and linked to your page. You can also use some inline directives for a few of the simple styles (like making bold-faced text).

Note:

Your info page should add some interactivity to elements (such as mouse hover).

Note:

You can use other colors or font or image (but do not change the layout).

(Sample image for header taken from the following website: <https://www.shutterstock.com/>)

“A lot of people want a shortcut. I find the best shortcut is the long way, which is basically two words: work hard.” (Randy Pausch)

Wishing you all the success on your exams

Niloufar Salehi
